

CONFIDENTIAL**ENG M-61 270****29 APR 1961****Chief, Telecommunications, Training
and Techniques Staff, OC****Chief, Engineering Staff, OC****Transistorized Converter, CV-5; Submittal
of Prototype for Evaluation and Comment**

1. The prototype 3 - 30 MC Transistorized Converter (CV-5) has been forwarded to your office for evaluation and comment.

2. The fabrication of additional units will be scheduled upon receipt of your approval of the prototype. The initial request asked that four units be constructed. Please advise if there have been any changes in this requirement.

3. The basic operation of this converter is very similar to that of the CV-1, CV-2 and CV-2A series. A schematic diagram of the converter and brief comments on its operation are attached.

25X1
